KEY METRICS

78.6% Benchmark outperform.	**91%** Model accuracy
4h->30m Per-client automation	**+250%** Sales growth Y1
9 cities 3 continents	**+47%** MX office revenue

EDUCATION

PhD Economics
UNAM | 2023-2026 | AI, Data Science & Public Policy

MSc International Economics
UNAM | 2020-2022 | Top decile of class

BSc Finance & Banking
EBC Mexico | 2017-2019 | 1st in class | Honours Mention

LANGUAGES

Spanish — Native
English — Native
French — Fluent
Chinese — Intermediate

CORE COMPETENCIES

- Strategic thinking & synthesis
- Executive communication
- Cross-cultural leadership
- Client relationship management
- Analytical problem solving
- Negotiation & stakeholder management
- Adaptability | Active learner

EXECUTIVE EDUCATION

MIT IDSS
Data Science & Machine Learning 2022
Wharton School
AI for Business | Financial Modeling 2019-23
Columbia University
Financial Engineering & Risk Mgmt 2018-20
EDHEC Business School
Investment Mgmt with Python & ML 2023

PROFILE

Senior Financial Analyst and Data Scientist with 12+ years of experience bridging finance, strategy, and technology. Track record of measurable impact: leading international M&A transactions, managing investment portfolios that outperform benchmarks, and building automation tools that save thousands of advisor-hours annually. Equally comfortable presenting to boards, managing cross-functional teams, or developing financial models. PhD researcher in AI and Public Policy. Open to Director, Controller, Project Manager, and Data Science Lead roles in fintech, investment banking, private banking, and consulting.

Value proposition: I turn complex data into clear decisions — and build the tools to do it at scale.

Strategic Finance	Data Science & AI	Tech Stack
M&A | FP&A | Capital Structuring | PE Advisory | Risk Analysis	Portfolio Optimisation | Forecasting | ML Models | Process Automation	Python | R | SQL | Power BI | Bloomberg | GCP | Azure

PROFESSIONAL EXPERIENCE

Project Manager | Financial Data Scientist — *2017-2020 | 2022-Present*

Independent Consulting | *Global | Finance & Technology*

- Led international M&A transactions and PE fund creation across Panama and India — managing full deal lifecycle from due diligence and valuation through to structuring and closing.
- Delivered financial strategy advisory for C-level clients across 9 cities and 3 continents, turning complex market and financial data into clear executive recommendations that drove investment decisions.
- Designed and implemented financial reporting frameworks and automation tools for SME clients, eliminating operational bottlenecks and improving decision-making speed.

+ Led hostile acquisition — credit company, Panama	+ Co-created & distributed Private Equity fund — India

Grants Manager — *2025*

Eprogram | *Spain | Energy Efficiency & Sustainability Consultancy*

- Acted as primary liaison between the Xunta de Galicia and industrial clients, managing the full grant lifecycle — from preparation and submission of justification reports to compliance and final approval.
- Reduced documentation workload by 50% and processing time by 35% by leading the digitisation and automation of all internal grant management workflows.
- Collaborated with technical and administrative teams to align all project documentation with regulatory requirements, improving audit readiness across concurrent grant applications.

+ Documentation workload reduced by 50%	+ Processing time optimised by 35%

Senior Consultant — Financial Analysis & Portfolio Management — *2015-2021*

St. James International | *Mexico & Latin America | Wealth Management*

- Achieved 78.6% benchmark outperformance across client portfolios, designing bespoke investment strategies for HNWI and institutional investors using factor-based modelling and behavioural finance principles.
- Saved 4+ hours per advisor per client by building proprietary portfolio automation software in Python and R — enabling the team to serve significantly more clients with the same headcount.
- Grew Mexico office profitability by 47.3% and LatAm regional profitability by 26.4% by building and leading a cross-functional coordination team across all LatAm branches.
- Managed relationships with institutional investors, asset managers, and HNWI clients across Europe, Asia, and the Americas.

+ Top portfolios company-wide — 2 consecutive years	+ +47.3% Mexico profitability | +26.4% LatAm

Digital Marketing 2015 — IAB Spain

INTERESTS

- Hackathons & software development
- Investment markets & trading
- Powerlifting | Volunteering
- Language clubs

Assistant Manager | Financial Advisor *2012-2015*

Tu Casa Express | *Mexico | Nationwide Mortgage Brokerage*

- Turned around the company's lowest-performing branch to #1 nationally — achieving 250% sales growth in year one and 120% in year two through strategy redesign, team restructuring, and performance management.
- Implemented continuous training and performance monitoring programmes that measurably increased team engagement and reduced staff turnover.

+ +250% sales Y1 | +120% Y2 | #1 branch nationally	+ Youngest Assistant Manager in company history

SELECTED PROJECTS

Portfolio Optimisation Platform Python | R | Bloomberg | Markowitz | Monte Carlo **4h saved/client** Automated portfolio selection and client reporting — cut advisor prep time from 4+ hours to under 30 minutes per client.	**Corporate Financial Distress Model** Python | XGBoost | Random Forest | Logistic Regression Bankruptcy risk scoring tool for credit analysis and M&A due diligence, built on structured financial statement data.
Market Prediction & Backtesting Python | LSTM | Factor Models | Time Series End-to-end framework for financial forecasting: factor signal generation, ML-based prediction, and systematic strategy backtesting.	**Real Estate Pricing Model** MySQL | R | Log-Linear Regression | EDA **+27.65% profit** 91% accurate model identifying optimal apartment mix for a development project — delivered 27.65% more profit than the developer's original estimate.
Hotel Cancellation Predictor Python | SVM | Decision Trees | Random Forest **89% accuracy** ML classifier flagging at-risk bookings to enable proactive retention strategies. Projected 30% revenue improvement for hotel operators.	**Ad-Block Revenue Recovery** A/B Testing | Sentiment Analysis | HR Analytics **$42.8K net gain** Designed data-driven strategy combining A/B testing and sentiment analysis to recover ad revenue lost to ad-blocking users.
